

Nursery Curriculum

There are six Areas of Learning

- Language Development
- Early Mathematical Experiences
- The Arts
- The World Around Us
- Physical Development and Movement
- Personal, Social and Emotional Development

The Staff within the Nursery Unit recognise the importance of play as the principle and crucial mode of young children's learning. When planning the curriculum, they provide as many diverse play opportunities as possible, to promote the optimum learning potential of each child.

The school approaches the Nursery Curriculum in a nurturing way, incorporating 'Theraplay' activities into the children's daily routine.

Snack Time!

We value the importance of 'Snack Time' in Nursery...

- Opportunity to prepare snack together
- Regular cookery activities
- Promoting independence through buttering own toast/crackers
- Encouraged to try new foods
- Fostering social skills alongside snack time e.g. teacher and children talking and eating together
- Collecting scones from dining hall on a Friday.
- Opportunities to eat in main dining hall

Adventures beyond Nursery!

The Nursery curriculum is further enhanced through structured visits by individuals with interesting occupations. Children have opportunities to visit the wider community such as; the local library, An Creagan and our very own forest school site. The Nursery children regularly link with classes throughout the Primary School e.g sharing stories on 'World Book Day' and attending special assemblies. The teachers from Year 1 team teach in Nursery one hour per week.
